Dear Sir/Madam

I am writing to propose a **Summer internship and recruitment program** offered by **Hackveda Limited**, one of the leading companies in the field of technology. Our internship and recruitment program is designed to provide practical knowledge and industry experience to college students, with the aim of preparing and recruiting them for a successful career in the field of technology.

Company & Program Details: We specialize in various areas of technology, including artificial intelligence, data analysis, healthcare products, DRDO defence products, algorithmic trading, and workforce development. Our internship program provides students with an opportunity to gain hands-on experience in these fields and to work on live projects.

[Watch Company Profile and Program Details](#)

Eligibility: The internship program is open to students from various disciplines such as Computer Science (CS), Electronics and Communication (EC), Information Technology (IT), Mechanical Engineering, Master of Computer Applications (MCA), Bachelor of Computer Applications (BCA), Master of Business Administration (MBA), and Bachelor of Business Administration (BBA).

Assessment Test: Students who are interested in participating in our internship program can register for our assessment test using the following link: [Assessment Test Registration Link](#). All the available technologies to do an internship with Hackveda Limited can be viewed after registration within Hackveda One2One account. We recommend that students watch our tutorial video on how to take the assessment test: [How to Take Assessment Test Tutorial](#). This tutorial will help students prepare for the

assessment test and give them an understanding of what to expect. A candidate can attempt one or more assessment test as per their area of interest for this internship.

Direct Registration: We understand that some students may be new to technology or may not have had the opportunity to attempt or pass an assessment test. For such students, we have curated this internship with fundamental learning material. Candidate can take this opportunity with a one-time (non-refundable) registration fee of Rs. 500/- only: [Direct Registration Link for Interested Students](#). There is zero additional cost to this internship program. This link will enable them to participate in our internship program and gain valuable industry experience.

Internship Location: The internship program will be conducted online, and students can participate from anywhere with a reliable internet connection.

Internship Duration: The internship duration is flexible with minimum 4 weeks and upto 6 months as per candidate availability and academic requirements.

Internship Timings: The internship timings will be flexible, and students can choose a schedule that works for them.

Internship Progress and Evaluation: During the internship a candidate will be provided access to projects and products developed by Hackveda Limited, related reference material, internship tasks with description, instructions and references. The candidate has to update daily progress and deliver presentations on project tasks provided. Candidates are evaluated based on their performance during the internship. The evaluation criteria

can include factors such as attendance, punctuality, quality of work, and communication skills.

Stipend Range: We will offer a minimum stipend of Rs. 5000 to Rs. 15000 based on the performance of the intern. We believe in rewarding hard work and dedication, and interns who perform exceptionally well will receive a higher stipend. Stipends will be applicable after 2 months successful probation period.

Placement Guarantee: We are committed to providing a placement guarantee to interns who successfully complete the six-month paid internship in our organisation. Our placement package starts from Rs. 4 LPA onwards and interns who perform exceptionally well will receive a higher pay package.

Upcoming Internship Batches: We will be conducting our internship program in batches, and the upcoming batches are from 1st April, 16th April, 1st May, 16th May, 1st June, 16th June, 1st July, and 16th July onwards.

Our internship and recruitment program is an excellent opportunity for college students to gain industry experience and develop their skills in various areas of technology. We believe that students who participate in our program will gain a competitive advantage in the job market, as they will have the necessary skills and experience to excel in their careers.

We would appreciate it if you could share this proposal with your students and encourage them to participate in our assessment test. We look forward to partnering with your

college for our internship and recruitment program.

Thank you for considering our proposal. Please feel free to contact us if you have any questions.

Regards
Devanshu Shukla
